

Project Name	Potential Recipient	Potential Recipient Address	Party Submitting Request	Project Description	Request Amount
Isleta Boulevard Restoration	Bernalillo County	2400 Broadway Boulevard SE Albuquerque, NM 87102	Bernalillo County Public Works Division	The purpose of this project is to provide surface restoration of cracked and ruptured pavement through milling and replacement of roadway for Isleta Boulevard from Rio Bravo Boulevard to Interstate 25 in Bernalillo County.	\$1,440,000.00
I-25 / Mesa Del Sol Boulevard Interchange	New Mexico Department of Transportation	1120 Cerillos Rd Santa Fe, NM 87504-1149	Mesa Del Sol	The purpose of this project is to improve access to Mesa Del Sol, a planned development. This proposed development encompasses 12,900 acres of land consisting of businesses and residences. The interchange will improve the traffic flow for future years and encourage businesses and resident to move into the area.	\$13,000,000.00
University of New Mexico Multi-Modal Transportation Center	New Mexico Department of Transportation	1121 Cerillos Rd Santa Fe, NM 87504-1149	University of New Mexico	The Multimodal Transportation Center will coordinate the interaction of pedestrians, bicycles, inter-regional shuttle bus service, light rail, rapid transit, intra-campus express bus service, and conventional automobile traffic by constructing a 1,400 space structure complete with improved roadways and other accommodations fro disseminating various modes of transport. It will organize and facilitate services to New Mexico's only Level 1 Trauma Center at UNM Hospital. The Center will be planned and managed by UNM Transportation and Parking Services, in cooperation with the Middle Region Council of Governments (MRCOG), the New Mexico State Department of Transportation, and the City of Albuquerque Transit Authority.	\$13,000,000.00
Park and Ride Facility	City of Albuquerque - ABQ Ride	100 First Street SW Albuquerque, NM 87102	City of Albuquerque - ABQ Ride	This project will plan, design, and construct a Park and Ride Facility at Tramway and Wenonah	\$3,200,000.00
Transit Vehicles Purchase	City of Albuquerque - ABQ Ride	101 First Street SW Albuquerque, NM 87102	City of Albuquerque - ABQ Ride	Purchase two 40' and two 60' hybrid-electric buses	\$2,800,000.00
Railrunner Siding Improvements	Mid-Region Council of Governments	809 Copper NW Albuquerque, NM 87109	Mid-Region Council of Governments	This project will make improvements to two sections of track. The Alameda siding project consists of constructing a 3500 foot siding between Alameda Road and Alameda Boulevard in the northern part of Albuquerque. The Los Lunas siding project consists of constructing a 4000 foot siding between Courthouse Drive and Morris Road in Los Lunas. These siding improvements will allow trains to pass and will improve safety, reliability, and efficiency for the Railrunner, Amtrak, and BNSF.	\$6,000,000.00
Paseo Del Norte Bus Rapid Transit (BRT)	City of Albuquerque - ABQ Ride	100 First Street SW Albuquerque, NM 87102	City of Albuquerque - ABQ Ride	The purpose of this project is to implement strategies developed from the Paseo del Norte Feasibility Study. Currently programmed for completion in 2011, the study will offer a thorough analysis of options available to remediate traffic congestion along Paseo del Norte (NM 423) from Coors Blvd. to the I-25 interchange. Along that corridor, Paseo del Norte incurs an average weekday traffic flow between 76,000 to more than 80,000 vehicles. Other than the interstates, this is the highest traffic count of any arterial within the greater Albuquerque area. This project will help reduce congestion and traffic accidents in this area.
